Address: 15 Aderring Avenue, Adamstown,
Lucan, Dublin K78 H9Y9.

Education:

Bachelor’s Accounting and Finance National University of Sciences and Technology (2018-2022) **CGPA: 3.00/4.00**
Masters of Business Analytics’ Dublin Business School (2025-2026) **First Class honor 1.1**

Work Experience:

Mercor

AI Training Data Specialist **Jun 2026 – Present**

- Model Response Evaluation:** Review and rank large language model outputs against detailed rubrics for factual accuracy, instruction-following, and reasoning quality across high-volume task batches.
- Expert Domain Annotation:** Author and label expert-level prompt–response pairs in finance, accounting, and business analytics, producing supervised training data for domain-specific model fine-tuning.
- Guideline Adherence and Quality Control:** Apply evolving annotation taxonomies and style guidelines, flagging ambiguous edge cases and maintaining a consistently high acceptance rate on submitted work.
- Reasoning Traces and Error Analysis:** Document step-by-step reasoning and diagnose logical, factual, and formatting errors in model outputs to support RLHF and evaluation workflows.

NaqCoDE Technologies Pvt Ltd

Finance Associate **Oct 2024 – Aug 2025**

- Payroll Management:** Oversee comprehensive payroll processing for all employees, ensuring accuracy in salary disbursements, tax deductions, and compliance with statutory regulations.
- Financial Reporting:** Prepare monthly, quarterly, and annual financial statements, including balance sheets, income statements, and cash flow statements, to support strategic decision-making.
- Process Optimization:** Streamline financial workflows by integrating advanced Excel models and automation tools, improving reporting efficiency by 20%.

Nawaz Construction Limited

Accounts Assistant **Oct 2022- Sep 2024**

- Invoice Management and Processing:** Spearheaded the creation, processing, and meticulous tracking of over 10,000 invoices monthly, achieving a 99% accuracy rate and enhancing operational efficiency.
- Supplier and Procurement Coordination:** Engaged with suppliers and procurement representatives across 10+ projects, fostering strategic partnerships and ensuring seamless supply chain operations.
- Bank Reconciliation:** Conducted thorough bank reconciliations for all firm accounts, ensuring accuracy in financial records and identifying discrepancies for prompt resolution.

Workshops and Seminars:

Data-Driven Business Transformation: A Journey into Applied Data Science

- Become proficient in Tableau for creating dynamic visualizations and interactive dashboards, facilitating data-driven decision-making processes.
- Skilled in RapidMiner for data preprocessing, predictive modeling, and workflow automation, enabling efficient analysis and extraction of actionable insights from complex datasets.

FinTech Frontier: Harnessing the Power of LLMs

- Experienced in fine-tuning and optimizing LLMs for specific tasks, ensuring enhanced performance and accuracy in natural language understanding and generation application
